MECHANISMS OF AGEING AND DEVELOPMENT

SUBJECT INDEX

Volume 61 (1991)

Acetylcholine, neurotransmitters, neurotransmitter receptors, dopamine, noradrenaline, serotonin, amino acid, 249

α-Adrenergic agonists, ageing, angiotensin, baroreflexes, β-adrenergic agonists, blood pressure, heart rate, 313

β-Adrenergic agonists, ageing, α-adrenergic agonists, angiotensin, baroreflexes, blood pressure, heart rate, 313

Ageing, α-adrenergic agonists, angiotensin, baroreflexes, β-adrenergic agonists, blood pressure, heart rate, 313

Ageing, cerebellar cortex, neurons, number, Nissl bodies, neural networks, choline alfoscerate, 173

Ageing, exercise, food restriction, glucose uptake, muscle, 123

Ageing, myosin light chain 1, rat, RNA, SDS-PAGE, muscle isoforms(s), 163

Ageing, rats, plasma LCAT, lipoproteins, cholesterol, 85

Age pigments ascorbic acid, malondialdehyde, fluorescence, non-enzymatic browning, glycosylation, 99

Aging, bronchoalveolar lavage, oxidant-antioxidant imbalance, senescence accelerated mouse, tobacco smoke, 223

Aging, cholecystokinin, brain chemistry, intestine, gene, RNA, 113

Aging, endocrine changes, T cell function, 275

Aging, human B cells, B cell proliferation, B cell and Cd20 and CD40, G_1 progression, 209

Aging, kidney, metabolism, enzyme histochemistry, microphotometry, rat, 187

Aging, lipofuscin, peripheral neuron, in culture, ultrastructure, 23

Aging, lymphocyte survival, cell transfer, 135

Aging, pancreatic cancer, mortality, epidemiology, 197

Aging, salivary gland, secretion, propranolol, calcium mobilization, 33

Aging, superoxide dismutase, catalase, glutathione peroxidase, brain, 287

Alz-50, Alzheimer's disease, microtubule-associated protein, tissue culture, neurofibrillary tangles, 1

Alzheimer's disease, Alz-50, microtubule-associated protein, tissue culture, neurofibrillary tangles, 1

Amino acid, neurotransmitters, neurotransmitter receptors, acetylcholine, dopamine, noradrenaline, serotonin, 249

Angiotensin, ageing, α-adrenergic agonists, baroreflexes, β-adrenergic agonists, blood pressure, heart rate, 313

Ascorbic acid, age pigments malondialdehyde, fluorescence, non-enzymatic browning, glycosylation, 99

Baroreflexes, ageing, α-adrenergic agonists, angiotensin, β-adrenergic agonists, blood pressure, heart rate, 313

Blood pressure, ageing, α-adrenergic agonists, angiotensin, baroreflexes, β-adrenergic agonists, heart rate, 313

Brain, superoxide dismutase, catalase, glutathione peroxidase, aging, 287

Brain chemistry, aging, cholecystokinin, intestine, gene, RNA, 113

Brain development, mitochondria, oxidative phosphorylation, 149

Bronchoalveolar lavage, aging, oxidant-antioxidant imbalance, senescence accelerated mouse, tobacco smoke, 223

B cell and Cd20 and CD40, human B cells, aging, B cell proliferation, G_1 progression, 209

B cell proliferation, human B cells, aging, B cell and Cd20 and CD40, G_1 progression, 209

Calcium mobilization, salivary gland, aging, secretion, propranolol, 33

Catalase, superoxide dismutase, glutathione peroxidase, aging, brain, 287

Cellular aging, stochastic and genetic theories, thermodynamics, 45

Cell transfer, lymphocyte survival, aging, 135

Cerebellar cortex, ageing, neurons, number, Nissl bodies, neural networks, choline alfoscerate, 173

Chemiluminescence, dietary restriction, tumours, macrophages, opsonins, 237
Cholecystokinin, aging, brain chemistry, intestine, gene, RNA, 113
Cholesterol, ageing, rats, plasma LCAT, lipoproteins, 85
Choline alfoscerate, cerebellar cortex, ageing, neurons, number, Nissl bodies, neural networks, 173
Craniofacial growth, laryngeal position, monkeys, man, morphometry, CT scans, radiopgraphs, 65
CT scans, craniofacial growth, laryngeal position, monkeys, man, morphometry, radiopgraphs, 65
Cytoskeleton, ontogeny, differentiation, glycolytic enzymes, micro-organization, 11

Dietary restriction, tumours, macrophages, chemiluminescence, opsonins, 237
Differentiation, ontogeny, glycolytic enzymes, cytoskeleton, micro-organization, 11
Dopamine, neurotransmitters, neurotransmitter receptors, acetylcholine, noradrenaline, serotonin, amino acid, 249
Dorsal root ganglion, protein kinase C, superior cervical ganglion, immunocytochemistry, 299

Endocrine changes, T cell function, aging, 275
Enzyme histochemistry, aging, kidney, metabolism, microphotometry, rat, 187
Epidemiology, pancreatic cancer, mortality, aging, 197
Exercise, ageing, food restriction, glucose uptake, muscle, 123

Fluorescence, age pigments ascorbic acid, malondialdehyde, non-enzymatic browning, glycosylation, 99
Food restriction, ageing, exercise, glucose uptake, muscle, 123

G_1 progression, human B cells, aging, B cell proliferation, B cell and Cd20 and CD40, 209
Gene, aging, cholecystokinin, brain chemistry, intestine, RNA, 113
Glucose uptake, ageing, exercise, food restriction, muscle, 123
Glutathione peroxidase, superoxide dismutase, catalase, aging, brain, 287
Glycolytic enzymes, ontogeny, differentiation, cytoskeleton, micro-organization, 11
Glycosylation, age pigments ascorbic acid, malondialdehyde, fluorescence, non-enzymatic browning, 99

Heart rate, ageing, α-adrenergic agonists, angiotensin, baroreflexes, β-adrenergic agonists, blood pressure, 313
Human B cells, aging, B cell proliferation, B cell and Cd20 and CD40, G_1 progression, 209

Immunocytochemistry, protein kinase C, superior cervical ganglion, dorsal root ganglion, 299
Intestine, aging, cholecystokinin, brain chemistry, gene, RNA, 113
In culture, aging, lipofuscin, peripheral neuron, ultrastructure, 23

Kidney, aging, metabolism, enzyme histochemistry, microphotometry, rat, 187

Laryngeal position, craniofacial growth, monkeys, man, morphometry, CT scans, radiopgraphs, 65
Lipofuscin, aging, peripheral neuron, in culture, ultrastructure, 23
Lipoproteins, ageing, rats, plasma LCAT, cholesterol, 85
Lymphocyte survival, aging, cell transfer, 135

Macrophages, dietary restriction, tumours, chemiluminescence, opsonins, 237
Malondialdehyde, age pigments ascorbic acid, fluorescence, non-enzymatic browning, glycosylation, 99
Man, craniofacial growth, laryngeal position, monkeys, morphometry, CT scans, radiopgraphs, 65
Metabolism, aging, kidney, enzyme histochemistry, microphotometry, rat, 187
Micro-organization, ontogeny, differentiation, glycolytic enzymes, cytoskeleton, 11
Microphotometry, aging, kidney, metabolism, enzyme histochemistry, rat, 187
Microtubule-associated protein, Alz-50, Alzheimer's disease, tissue culture, neurofibrillary tangles, 1
Mitochondria, brain development, oxidative phosphorylation, 149
Monkeys, craniofacial growth, laryngeal position, man, morphometry, CT scans, radiopgraphs, 65
Morphometry, craniofacial growth, laryngeal position, monkeys, man, CT scans, radiopgraphs, 65
Mortality, pancreatic cancer, epidemiology, aging, 197
Muscle, ageing, exercise, food restriction, glucose uptake, 123

Muscle isoforms(s), myosin light chain 1, rat, ageing, RNA, SDS-PAGE, 163
Myosin light chain 1, rat, ageing, RNA, SDS-PAGE, muscle isoforms(s), 163

Neural networks, cerebellar cortex, ageing, neurons, number, Nissl bodies, choline alfoscerate, 173
Neurofibrillary tangles, Alz-50, Alzheimer's disease, microtubule-associated protein, tissue culture, 1
Neurons, cerebellar cortex, ageing, number, Nissl bodies, neural networks, choline alfoscerate, 173
Neurotransmitters, neurotransmitter receptors, acetylcholine, dopamine, noradrenaline, serotonin, amino acid, 249
Neurotransmitter receptors, neurotransmitters, acetylcholine, dopamine, noradrenaline, serotonin, amino acid, 249
Nissl bodies, cerebellar cortex, ageing, neurons, number, neural networks, choline alfoscerate, 173
Non-enzymatic browning, age pigments ascorbic acid, malondialdehyde, fluorescence, glycosylation, 99
Noradrenaline, neurotransmitters, neurotransmitter receptors, acetylcholine, dopamine, serotonin, amino acid, 249
Number, cerebellar cortex, ageing, neurons, Nissl bodies, neural networks, choline alfoscerate, 173

Ontogeny, differentiation, glycolytic enzymes, cytoskeleton, micro-organization, 11
Opsonins, dietary restriction, tumours, macrophages, chemiluminescence, 237
Oxidant-antioxidant imbalance, aging, bronchoalveolar lavage, senescence accelerated mouse, tobacco smoke, 223
Oxidative phosphorylation, mitochondria, brain development, 149

Pancreatic cancer, mortality, epidemiology, aging, 197
Peripheral neuron, aging, lipofuscin, in culture, ultrastructure, 23
Plasma LCAT, ageing, rats, lipoproteins, cholesterol, 85
Propranolol, salivary gland, aging, secretion, calcium mobilization, 33
Protein kinase C, superior cervical ganglion, dorsal root ganglion, immunocytochemistry, 299

Radiopgraphs, craniofacial growth, laryngeal position, monkeys, man, morphometry, CT scans, 65
Rat, aging, kidney, metabolism, enzyme histochemistry, microphotometry, 187
Rat, myosin light chain1, ageing, RNA, SDS-PAGE, muscle isoforms(s), 163
Rats, ageing, plasma LCAT, lipoproteins, cholesterol, 85
RNA, aging, cholecystokinin, brain chemistry, intestine, gene, 113
RNA, myosin light chain 1, rat, ageing, SDS-PAGE, muscle isoforms(s), 163

Salivary gland, aging, secretion, propranolol, calcium mobilization, 33
SDS-PAGE, myosin light chain 1, rat, ageing, RNA, muscle isoforms(s), 163
Secretion, salivary gland, aging, propranolol, calcium mobilization, 33
Senescence accelerated mouse, aging, bronchoalveolar lavage, oxidant-antioxidant imbalance, tobacco smoke, 223
Serotonin, neurotransmitters, neurotransmitter receptors, acetylcholine, dopamine, noradrenaline, amino acid, 249
Stochastic and genetic theories, cellular aging, thermodynamics, 45
Superior cervical ganglion, protein kinase C, dorsal root ganglion, immunocytochemistry, 299
Superoxide dismutase, catalase, glutathione peroxidase, aging, brain, 287

Thermodynamics, cellular aging, stochastic and genetic theories, 45
Tissue culture, Alz-50, Alzheimer's disease, microtubule-associated protein, neurofibrillary tangles, 1
Tobacco smoke, aging, bronchoalveolar lavage, oxidant-antioxidant imbalance, senescence accelerated mouse, 223
Tumours, dietary restriction, macrophages, chemiluminescence, opsonins, 237
T cell function, endocrine changes, aging, 275

Ultrastructure, aging, lipofuscin, peripheral neuron, in culture, 23
